

“VINTAGE PLUS” SERIES COMBO AMPLIFIERS

25L15 “Vintage Plus”

The original Standel, made famous by Chet Atkins, Joe Maphis, Grady Martin, Merle Travis and now Ry Cooder and many other guitar greats. This cathode biased amplifier has 25 watts of power, a dual-chassis/top-dial format and is hand built using point-to-point tube circuitry. Tubes used are: 12AX7, 12AT7, 12AU7, 5U4 rectifier and a matched pair of 807 power tubes. All components are top-grade, audiophile quality.

Top chassis includes: Personalized Lighted Dial, Instrument Input, Power Switch, Volume, Treble, Bass and Hide-A-Jack input with Volume control.

Bottom chassis features: balanced XLR line output with level control, extension speaker jack, speaker impedance select (4Ω, 8Ω & 16Ω), send and return jacks for linking additional 25L15 amplifiers or Standel PSL15 powered speaker cabinets.

Cabinet features: Italian poplar wood construction, classic padded upholstery covering, JBL D-130 speaker (used with full warranty), leather handle with steel reinforcement, pull-out casters and deluxe padded cover.

Available as a 5-knob version with Volume, Treble, Bass, Contour & Accent controls.

The 25L15 is also available with Reverb and features: Reverb Mix, Reverb Tone, Reverb Dwell, Volume, Treble & Bass.

“VINTAGE PLUS” SERIES ACOUSTIC MAGNIFIERS

Standel first introduced Acoustic Magnifiers (self-powered speaker cabinets) in the '60s. Today, four decades later, the all-new “Acoustic Magnifier” Line consists of two high performance, extension speaker systems with self contained, all-tube power units. Each Standel amplifier model is equipped with a signal output jack for connection to any Standel Acoustic Magnifier model; consequently an open-ended power system is available.

AM-25L15 “Vintage Plus” – 25 Watts

The 25-AM15 is the ideal enhancement for the 25L15 when you want to double your power and speaker coverage for an extra big 25L15 sound.
